REDDING

Redding, March 27.—The body of Mrs. Martha Osborn, whose death occurred in Washington, D. C., last Friday, arrived here Saturday afternoon accompanied by Judge J. R. Sanford, brother, and Miss Eleanor Osborn, stepdaughter. Funeral services were conducted at the home on the Ridge Monday afternoon by Rev. C. S. Luther, who had his first pastorate in this town and is now located in New Haven. For his remarks he referred to the Christian character and estimable qualities of the deceased and made mention of the fact that four years ago, on the same date and at the same hour and place, he officiated at the funeral of Henry S. Osborn, her husband. In the numerous floral tributes from the friends of the deceased lady roses and sweet peas were conspicuous. The pall bearers were Lemuel B. Sanford, Dayton Sanford, Arthur Hague, Arthur Olson, John Randall and Samuel Randall, all of whom, with one exception, are nephews of the deceased. Interment was in the Ridge cemetery.

With commendable promptness Charles Stauffer, one of the new road contractors, started work on the job last week, Sunset Hill being the place to which he first gave attention. It needed the leveling process badly enough and so to other sections but probably none more than the stretch near the Easton line at the southern extremity of the same highway. This is so deeply rutted that it forms a companion piece as regards travelling horrors to the Easton section of the road above the Sunset Hill. The long continued neglect of the latter may possibly be explained by the supposition on the part of the Easton selectmen that they are relieved of responsibility in the matter because the road has been designated as a trunk highway and should therefore be looked after by the State. This point was brought to the attention of Highway Com. Bennett by the Redding committee which interviewed him last week. His response was that the Easton officials were mistaken if they entertained such an idea, the care of the road devolving upon them until the State made the road a trunk line in fact as well as in name.

All uncertainty regarding the fate of Alvin Treadwell, a member of the American Legion, who was reported missing while performing active service at the front last fall, has been removed by a letter received by Prof. Louis Treadwell, his father, from another American flyer. The letter says that young Treadwell was in a combat with the enemy, was shot through the lungs, he was alive when his machine reached the ground and was taken to a German hospital where he died four days later. The writer of the letter says at the time a patient in the same hospital and upon recovering took the first opportunity of communicating with the family of his dead comrade, although his letter was a long time in reaching its destination. Young Treadwell was a native of this town.

Among those who went from this town to New York on Tuesday to witness the triumphal parade of the 27th division were Mr. and Mrs. J. B. Sanford, Mr. and Mrs. Leonard Sanford, H. Sanford, Captain and Mrs. H. S. Barnes. Their interest in the occasion was largely centered in Sergeant J. B. Sanford Jr., who was severely wounded in the final assault which smashed the Hindenburg line, and by reason of the bravery he then evinced has been decorated by both the American and British commands. Of his relatives and friends who closely scanned the marching ranks, only Miss Eleanor, his sister, was certain of having distinguished him among the paraders. Sergeant Sanford, who has been discharged from the service on April 2, will then come to his home at Redding Center, but the question of remaining and resuming the management of his father's farm is yet to be decided.

The firm of Osborn & Barnes has been awarded a road building contract which calls for payments amounting to \$157,500. Last season the firm was occupied with a \$100,000 contract for road construction between Waterbury and New Haven.

The acreage of corn intended for the production of the grain and notilage will be put in this season by Marcus H. Burr. The local potato acreage will probably be less than that of last year owing to present low prices and apprehensions of a return of the blight which did so much damage last season.

A special town meeting will be held Saturday at the town house to fix the tax rate for this year.

Mel Wood has moved from the Seth Todd place to Danbury.

OUR NEWTOWN NEWS LETTER

(Special to The Times.)

Newtown, March 27.—The town was treated to the procession of gypsy caravans, caris, ponies and other diverting sights this week as they passed through town to pitch tents and camp on the banks of the Housatonic river near Sandy Hook station. Much diversion was given many of the younger people who followed them to get a glimpse of life as the gypsies live it.

One of the gypsy band, a little girl, had her hand badly bitten while endeavoring to separate two dogs fighting. The wounds were attended to by the town's physician and the little heroine became quite popular among the children. Since the advent of the vacuum cleaner the gypsy women find difficulty in disposing of their feather dusters and other devices of their heads and complained to housewives of the poor sales made this year of their wares.

The old Borden creamery, more recently the ice storehouse for foundry pond ice, is now put to a new use that of a paint shop for automobiles and carriages. Since the burning down of the Bassett shop near Newtown station several years ago, no shop of this kind has replaced the business until now. George Evans has opened up the old creamery building for this purpose.

Ice is being carried all this week from the railroad station to several different parts of town for storage as no ice of sufficient thickness to cut made during the mild winter on nearby ponds. This singular condition is remarkable inasmuch as that, while little ice was harvested, skating has been enjoyed for a longer period this winter than any previous year in the memory of many.

Sanford Beers, son of Mr. and Mrs. H. H. Beers, has taken the place of teacher of science at Newtown High, replacing Miss Fuller, who resigned. Miss Beers is a graduate of N. H. Newtown, March 27.—Many fields and gardens are already ploughed and ready for planting. The call for handy men is very urgent, not only on farms and gardens, but for the several things peculiar to spring work, in and out of doors. Mechanics here as elsewhere are not so greatly in demand, but there is work to do for many in ways which were impossible last year or during war times. Also, the knight of the road is more evident this spring. Road work is being facilitated by the use of the drag by automobile.

Dr. W. H. Kiernan is in New York visiting his brother at Roosevelt hospital, who has recovered sufficiently to be able to travel to Canada. He expects to start on this trip today.
